About Us

The Department of the Navy (DON) Category Management (CM) Program Office is a team of dedicated ac professionals focused on advancing strategic procurement across the enterprise.

- Identifies opportunities to leverage strategic solutions
- Delivers training on Category Management best practices
- Maintains the official DON CM website
- Creates and submits Spend Under Management (SUM) tier reports
- Provides Procurement and data analytics insights

We support the DON acquisition community by promoting smarter buying practices and driving mission-aligned through data-driven decision-making.

Understanding Category Management

What is Category Management?

A strategic approach to buying common goods and services as an organized enterprise to improve the efficiency and effectiveness of the acquisition cycle by using existing contract solutions.

Benefits of Category Management

- Uses a data driven approach to consolidate and reduce contracts when possible
- Improves the management of suppliers and demand
- Helps streamline the procurement process
- Reduces the total cost of ownership

Governing Documents

Category Management within the DON is guided by a blend of federal mandates and internal policies ensuring smarter, more strategic procurement.
